

KIDS' CORNER

One of the easiest ways to conserve electricity is to turn the light off when you leave a room. Too bad one of these kids forgot that bright idea. Maddie, Emily, Jack, Sanjay, and Evan were all hanging out in the computer room at school. But the last one to leave the room didn't turn the light off on the way out. Use these clues to figure out which kid forgot to flip the switch.

Clues:

1. Jack left before Emily.
2. Evan left after Emily and before Maddie.
3. Sanjay was the fourth person to leave the room.

Answer: This is the order that the kids left the room: Jack, Emily, Evan, Sanjay, and Maddie. So Maddie was the one who forgot to turn off the light.
